

Type Tonight presentation guidelines

Structure

We typically structure presentations as 5 minutes of presenting and 10 minutes of constructive feedback and dialogue with the type community.

Format

We prefer a 16:9 ratio, pdf format.

Presentation content tips

- **Title slide** — project title + your name. And of course, feel free to add an intro slide about yourself!
- **Context slide(s)** — what the project is, who it's for, why you pursued it, constraints, etc.
- **Work slides** — process and project details. Make sure the content is large enough to see from the back.
- **Closing slide(s)** — Open questions at the end to prompt audience discussion and often serve as the heart of the presentation and dialogue afterwards. Our presenters walk away with valuable feedback and new ideas from those conversations, so we strongly encourage you to lean into questions and areas where you'd genuinely like input.
